

I am extremely concerned about the fact that Sinclair Broadcasting's is forcing one of our local stations, in addition to their other stations, to air a clearly political attack on John Kerry shortly before the election. Their attempt to present it as a documentary, rather than a political ad, makes the situation even worse and is incredibly insulting to me. It is a clear abuse of ethics and public interest. This should not be permitted in a station that uses airwaves free of charge, as Sinclair does.

I sincerely hope the FCC will act to ensure that this type of abuse is not permitted. Thank you.
